

WELLDONE RUBBER SPEED HUMP PRODUCT SPECIFICATION

1 Scope

This specification cover the detailed product info and performance for the following products listed at below:

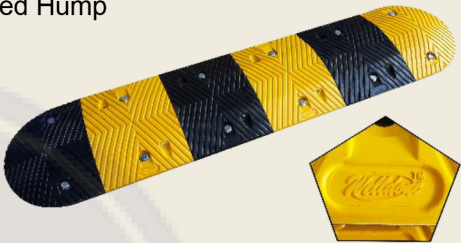

2 Product Description

2.1 Product Name : Rubber Speed Hump

2.2 Model No. : RH-5

2.3 Outline Dimension

Part	Length	Width	Thickness
Middle	500mm	350mm	45mm
End	250mm	350mm	45mm

2.4 Fitting Holes : Middle Piece: 4 holes x 16mmø
End Cap: 2 holes x 16mmø

2.5 Weight : Middle Piece: 7kg; End Cap: 3kg

2.6 Bearing Capacity : 20 tons car at 10km/h

2.7 Range of Temperature : -55°C ~ + 55°C

2.10 Materials :

2.11 Inner Package Size : 500mm x 350mm x 225mm
5PCS/Woven Bag

2.12 Physical Performance :

Tensile Strength: 6.0MPA	Elongation at break: 200%
Impact Elasticity: 37%	Abrasion Performance: 0.28CM3/1.61KM
Hardness: 85A	

2.13 Warranty :

In case of any products upgrade, please confirm the above information with our sales representative.
Note: The above data has 2% tolerance.
